| <i>Connie Ennis</i> | |
| <i>Executive Assistant – Traci L. Arnold</i> | <i>Policy Director</i> |
| <i>– Rob Vickers</i> | |
| <i>Communications Director – Alyssa D. Brown</i> | |

Directions to the Florida Solar Energy Center:

From North Florida:

Take I-95 south to SR-528 (Exit 205). Exit east onto SR-528 and follow the instructions given below [From intersection of I-95 and SR-528](#).

From Orlando Airport:

Follow Airport signs to the north Airport exit. Exit east onto SR-528 (Bee Line Expressway) toward Cocoa. Travel east about 30 miles on SR-528 to I-95. From I-95 follow directions given below [From intersection of I-95 and SR-528](#).

Proceed east on SR-528 for approximately 4 miles from Interstate 95. Take the first exit off of SR-528 to Industry Road and Clearlake Road. Proceed to the ***stop sign*** at the end of the off ramp. Turn right at the stop sign onto Industry Road and immediately move into the left-hand lane. Industry Road dead-ends into SR-524 and SR-501 at the traffic light that is approximately 500 yards from exit ramp stop sign. You will need to turn left at this light, so get into the left hand lane as quickly as possible after turning onto Industry Road. At the traffic light turn left onto SR-501

(Clearlake Road) and proceed east. Follow the sharp right-hand bend in the road and proceed south to the next stop light at the intersection of Clearlake Road and Michigan Avenue. The Florida Solar Energy Center is a large blue building with red and yellow trim. You will easily be able to see it on your right-hand side across this intersection (see photo at right). Proceed straight through the intersection, move into the right-hand lane, and turn right into the first entryway.
